Reviewer's report

Title: Gastrointestinal Stromal Tumour of the Duodenum in Childhood: A Rare Case Report

Version: 4 Date: 16 February 2007

Reviewer: Anette Duensing

Reviewer's report:

General
In the second revision of their manuscript entitled "Gastrointestinal Stromal Tumor of the Duodenum in Childhood: A Rare Case Report" Chiarugi et al. have addressed all concerns that were raised by the reviewers adequately.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
