Reviewer's report

Title: Intratumoral Delivery of IL-18 Naked DNA Induces T-Cell Activation and Th1 Response in a Mouse Hepatic Cancer Model

Version: 4 Date: 26 March 2007

Reviewer: Richard Heller

Reviewer's report:

General

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
None

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
