Reviewer's report

Title: Expression of CD80 and CD86 costimulatory molecules correlates with better survival in nasopharyngeal carcinoma

Version: 3 Date: 18 March 2007

Reviewer: Gil Bar-Sela

Reviewer's report:

General
The paper was corrected according to the revision and it can be published as it is now.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
