Title: Hyperglycemia regulates thioredoxin-ROS activity through induction of thioredoxin-interacting protein (TXNIP) in metastatic breast cancer-derived cells MDA-MD-231

Version: 2 Date: 30 May 2007

Reviewer: Junji Yodoi

Reviewer's report:

The revised manuscript by Francesco Turturro et al. is appropriately corrected according to our comment. I consider that the manuscript can be accepted for BMC Cancer.
