Reviewer's report

Title: Polymorphisms cMyc-N11S and p27-V109G and Breast Cancer Risk and Prognosis

Version: 2 Date: 27 March 2007

Reviewer: Michael Wirtenberger

Reviewer’s report:

General
The authors have changed the manuscript according to all comments.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I declare that I have no competing interests.
