Reviewer's report

Title: Polymorphisms cMyc-N11S and p27-V109G and Breast Cancer Risk and Prognosis

Version: 2 Date: 27 March 2007

Reviewer: Arto Mannermaa

Reviewer's report:

General

-----------------------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
A sentence stating that multiple correction was not included in the statistical should be added to the text.
-----------------------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------------------------------------------------------

What next?: Accept after discretionary revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
