Reviewer's report

Title: Cervix carcinoma is associated with an up-regulation and nuclear localization of the dual-specificity protein phosphatase VHR.

Version: 2 Date: 22 April 2008

Reviewer: Alp Usubutun

Reviewer's report:

As I previously stated, letters of the figure 2A mismatched.

In the figure legends, 2A b stated as cervical glandular cells (false) seems like LSIL I think the correct letter for this figure is “e”.

Also figure 2A, c,d,e is also mismatch.

Please correct the mismatch between the letters shown in the figure legends and the letters of figures.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
