Reviewer's report

Title: Penetrance estimates for BRCA1 and BRCA2 based on genetic testing in a Clinical Cancer Genetics service setting: risks of breast/ovarian cancer quoted should reflect the cancer burden in the family

Version: 2 Date: 12 March 2008

Reviewer: Michael Patrick Lux

Reviewer's report:

The answers of the authors are very interesting and they have considered my requests. The changes of the manuscript are well done. Regarding these points, I can now recommend the publication without any further remarks.
