Reviewer's report

Title: Antisense oligonucleotides and all-trans retinoic acid have a synergistic anti-tumor effect on oral squamous cell carcinoma

Version: 2 Date: 12 March 2008

Reviewer: Sugawara Akira

Reviewer's report:

Since the authors have corrected points that I have raised, I feel it OK to accept the manuscript.

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
