Reviewer's report:

Title: Prognostic Relevance of Centromere Protein H Expression in Esophageal Carcinoma

Guo X et al., attempt to demonstrate that the Centromere Protein H (CENP-H) protein expression can be used as a prognostic marker in esophageal carcinoma patients.

This manuscript is well written and it does provide important data concerning the useful of CENP-H protein in esophageal cancer.

Minor comments:
1. Reference style must be uniform following the journal’s policy (as cited journal’s names should typed in italic or not, and also see ref no 18).
2. In Figure 2 last sentence: C. The density… by Quality one. Does the author mean, Quantity One?

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
