Reviewer’s report

Title: Gene expression variation to predict 10-year survival in lymph-node-negative breast cancer

Version: 2 Date: 21 June 2008

Reviewer: Sunil Badve

Reviewer’s report:

A partially negative study which nonetheless offers insights in the biology of breast cancer, particularly node negative disease.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
