Reviewer's report

Title: Different gene-expression profiles for the poorly differentiated carcinoma and the highly differentiated papillary adenocarcinoma in mammary glands support distinct metabolic pathways

Version: 1 Date: 23 July 2008

Reviewer: Kay-Uwe Wagner

Reviewer's report:

The manuscript has improved. The authors answered all of the reviewer's concerns.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
