**Reviewer's report**

**Title:** Variation in incidence of breast, lung and cervical cancer and malignant melanoma of skin by socioeconomic group in England.

**Version:** 3  **Date:** 2 June 2008

**Reviewer:** Gwenn Menvielle

**Reviewer's report:**

The authors took into account the comments and the revised version is much clearer than the first version.

I just have some editing comments (it is probably just typing errors but they should be corrected). I list below some of them, but the authors should read the manuscript carefully to correct all editing problems.

- page 9: Then sentence between the references 39-41 and 42 is unclear.
- page 10 last paragraph: in 2006 is written two times in the second last sentence.
- page 13: first line no published?
- third line to improve
- the sentence before ref 34 is unclear

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**

I declare that I have no competing interests
