Reviewer's report

Title: Analysis of EGFR, HER2, and TOP2A gene status and chromosomal polysomy in gastric adenocarcinoma from Chinese patients

Version: 2 Date: 16 July 2008

Reviewer: Akishi Ooi

Reviewer's report:

I am not familiar with "EGFR polysomy". But this word was well defined in the materials and methods of the paper.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
