Reviewer's report

Title: Mammaglobin B expression is an independent prognostic marker for reduced risk of recurrence in epithelial ovarian cancer

Version: 2 Date: 6 July 2009

Reviewer: Christer Borgfeldt

Reviewer's report:

The revised manuscript is improved.

Grade did not show any difference in MGB-2 expression and mRNA expression which may be commented and given some kind of explanation.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
