Reviewer’s report

Title: Activation of the steroid and xenobiotic receptor, SXR, induces apoptosis in breast cancer cells.

Version: 3 Date: 5 December 2008

Reviewer: Rakesh K. K. Tyagi

Reviewer’s report:

The revised manuscript MS: 6577047992157375 entitled ‘Activation of the steroid and xenobiotic receptor, SXR, induces apoptosis in breast cancer cells’ by Verma S. et al has been re-evaluated. The comments and concerns raised by me on the previous version of the manuscript have been appropriately answered and incorporated along with a new figure in the revised manuscript. Considering the overall revision the manuscript now appears to be concise with improved clarity in authors’ claims. I am happy to recommend that the revised manuscript is now suitable for publication in BMC Cancer.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
