Reviewer's report

Title: Association of common variants in mismatch repair genes and breast cancer susceptibility: a multigene study.

Version: 2 Date: 30 July 2009

Reviewer: Pavel Vodicka

Reviewer's report:

The authors have thoroughly revised a manuscript and it may be acceptable after minor revision. It concerns the logic and readability of the "Background" and "Discussion" sections.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
