Reviewer's report

Title: Randomised Phase I/II trial assessing the safety and efficacy of radiolabelled anti-carcinoembryonic antigen I131 KAb201 antibodies given intra-arterially or intravenously in patients with unresectable pancreatic adenocarcinoma

Version: 2 Date: 20 December 2008

Reviewer: Stefan Boeck

Reviewer's report:

The answers of the authors to the suggestions for revision are sufficient and the current version of the paper can be published.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
