Reviewer's report:

I have read the “Awareness of cataract and glaucoma in a population of Nepal: Bhaktapur Glaucoma Study” with great interest. I would like to praise authors for conducting research in the area which is very important.

The only suggestion I have “Authors need to keep the complete questionnaire as a table or as a supplement material available online”.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
