Reviewer's report

Title: Human pericardium graft in the management of bleb’s complication performed in childhood: a case report

Version: 4 Date: 24 June 2011

Reviewer: Kazuyuki Hirooka

Reviewer's report:

Major point
This patient was presented to your clinic because of claiming blurring of vision. BCVA was light perception at the first visit. Five months later BCVA was still light perception. Author should explain why BCVA did not improve.

Minor point
Abstract Line 4 “hypotony related to bleb’s leakage”. Page 4 Line 4 “The seidel test was negative.” Which is true?

Please show IOP at the first visit of your clinic.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
