Reviewer's report

Title: Frequency Doubling Technology, Optical Coherence Technology and Pattern Electroretinogram in Ocular Hypertension

Version: 2 Date: 12 June 2012

Reviewer: Christopher Bowd

Reviewer's report:

The manuscript is clearer/more complete based on the changes made to address the Reviewers' comments. There are still some English language-related style issues, but presumably these will taken care of in the preparation of the proofs. I think it's good to go.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
