Reviewer's report

Title: Changes of Intraocular Pressure after Pharmacologic Pupil dilation

Version: 1 Date: 25 June 2012

Reviewer: Wisam Shihadeh

Reviewer's report:

Minor Essential Revisions:
1. What is the percentage of eyes that developed post-dilation rise in IOP?
2. How could you explain those who did not develop any IOP rise according to the proposed mechanism?
3. Where there any pseudoexfoliation patients?
4. Any explanation for those who had decrease in their diurnal IOP?

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
