Reviewer's report

Title: European S T80 Community-Associated Methicillin-Resistant Staphylococcus Aureus Orbital Cellulitis in a Neonate.

Version: 3 Date: 14 March 2012

Reviewer: Caroline Quach

Reviewer's report:

Minor:
Please put references for the 12mg/kg dose of Daptomycin (as the IDSA guidelines recommend 6-10 mg/kg [Liu C et al. Clin Inf Dis 2011; 52: 1-38]) - and knowing that a different dosage may be used without adverse event is important, as long as the dosage is based on some sound evidence.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
