Reviewer's report

Title: Persistent unsealed internal limiting membrane after Nd:YAG laser treatment for Valsalva retinopathy

Version: 1 Date: 5 February 2013

Reviewer: Miriam Garcia-Fernandez

Reviewer's report:

- There are several misspellings, synthatx and grammar mistakes which should be corrected before acceptance.
- Abbreviators definitions should be specified, for example: Count Fingers (CF) and Hand Motion (HM).
- Several times throughout the text you mention: “at macular” and it should be “at macula”, or “at macular region”.
- There exist more recent papers concerning this issue in current literature which should be mention in the manuscript:
- In general terms, I consider that it is an interesting paper and it can be suitable for publication pending certain changes.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I do not have any financial interest.
