Reviewer's report

Title: Choroidal neovascularization in angioid streaks following microincision vitrectomy surgery: a case report

Version: 3 Date: 15 June 2013

Reviewer: Winfried Amoaku

Reviewer's report:

This paper has been revised adequately, taking the reviewers' comments into account. Extra images and histology have been provided.

Minor comment: The legend for the OCT in Fig 5 should indicate that 'there is significant but incomplete regression of CNV, and persistence of intra-retinal cysts'.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
