Reviewer's report

Title: Prognostic factors for corneal graft recovery after severe corneal graft rejection following penetrating keratoplasty

Version: 2 Date: 17 October 2012

Reviewer: Jatin Naresh Ashar

Reviewer's report:

The article is well written. It deals with an important issue relating to the graft survival after graft rejection.

The article is acceptable for publication with a few minor revisions.

The abstract is rather confusing and does not convey what it is supposed to. The last line of the results section needs to be modified. it does not make clearly convey what the authors want to say

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
