Title: Amniotic membrane transplantation as additional therapy in patients with aggressive Mooren's ulcer

Version: 1 Date: 10 November 2013

Reviewer: Jeffrey Varanelli

Reviewer's report:

I have attached the report with my changes. This articles has the potential to hold much merit; however, I don't feel the authors included enough information on why AMT is a viable therapeutic option.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have received honoraria by the manufacturers of two Sutureless Amniotic Membranes (BioTissue, and IOP Ophthalmics).
