Reviewer's report

**Title:** Assessment of anterior chamber depth measurements using the Orbscan II ultrasound biomicroscope and Artemis- 2 VHF scanner

**Version:** 1  **Date:** 14 March 2013

**Reviewer:** David Pablo Pinero Llorens

**Reviewer's report:**

This is an article well-done, well-written, with a very appropriate statistical analysis, but it deals with a topic that have been extensively studied.

Here you have some examples:

Therefore, in spite of the excellent work done, I am not convinced of the interest of this issue at this moment.

Furthermore, the number of references included is exaggerated and this list should be reduced significantly.

**Level of interest:** An article of limited interest

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
