Reviewer’s report

Title: Agreement between the Orbscan II, VuMAX UBM and Artemis-2 very-high frequency ultrasound scanner for the measurement of anterior chamber depth.

Version: 4  Date: 21 January 2014

Reviewer: Giacomo Savini

Reviewer’s report:

The paper can now be accepted for publication, on condition that a careful grammar and style revision is provided. There are still many errors in the manuscript.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
