Reviewer’s report

Title: Weill-Marchesani syndrome with advanced glaucoma and corneal endothelial dysfunction: a case report and literature review

Version: 2  Date: 2 October 2014

Reviewer: Luciano Quaranta

Reviewer’s report:

This is a well written and short case report.
The authors should better justify surgical choice.
English editing is strongly recommended

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published
