Reviewer’s report

Title: Time series analysis of age related cataract hospitalizations and phacoemulsification

Version: 2 Date: 27 December 2005

Reviewer: Catherine A McCarty

Reviewer’s report:

General
I believe that the authors have adequately addressed all of my comments.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
