Reviewer's report

Title: Efficacy of Topical Cobalt Chelate CTC-96 Against Adenovirus Keratoconjunctivitis in a Rabbit Model.

Version: 3 Date: 7 March 2006
Reviewer: Andrew D Dick

Reviewer's report:

General

----------------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

----------------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

----------------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)
None

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
