Reviewer's report

Title: Ultrasound biomicroscopy findings of 25 G Transconjunctival sutureless (TSV) and conventional (20G) pars plana sclerotomy in the same patient.

Version: 1 Date: 21 November 2005

Reviewer: K.V. Chalam

Reviewer's report:

General

One single case is not sufficient to come to the scientific conclusion.

-------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Reject because too small an advance to publish

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No
