Reviewer's report

Title: The importance of central corneal thickness measurements and decision making in general ophthalmology clinics: a masked observational study

Version: 4 Date: 30 September 2007

Reviewer: Tarek A Saleh

Reviewer's report:

General
I believe that the revised manuscript is acceptable for publication.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
I have no competing interests.
