Reviewer’s report

Title: The ChromaTest, a Digital Color Contrast Sensitivity Analyzer, for Diabetic Maculopathy

Version: 3  Date: 6 June 2008

Reviewer: Deborah Broadbent

Reviewer’s report:

I am afraid that there has been insufficient attention to detail in the revisions, the study is underpowered and therefore unable to reach any useful conclusions and I don’t feel that the paper adds anything new to the current evidence base in this field.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
