Reviewer's report

Title: Customized pachymetric guided epithelial debridement for corneal collagen cross linking

Version: 2 Date: 12 January 2009

Reviewer: Eberhard Spoerl

Reviewer's report:

The authors responds to all questions.
Was the distance between the UVX and the cornea 10 cm? This is to fare. The distance is normally 5 cm. The authors should check this, please.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
