Reviewer's report

Title: Endothelial Dysfunction in Obese Non-Hypertensive Children Without Evidence of Sleep Disordered Breathing

Version: 2 Date: 25 November 2009

Reviewer: Aaron S Kelly

Reviewer's report:

Overall, the authors have reasonably addressed the reviewers concerns. It seems that the second vascular test was performed to evaluate reproducibility. These reproducibility data should be added to the manuscript in either the vascular methods section or results section.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
