Reviewer's report

Title: Infant skin-cleansing product versus water: A pilot randomized, assessor-blinded controlled trial

Version: 2 Date: 17 March 2011

Reviewer: Maria M Lauriola

Reviewer's report:

Minor Essential Revisions

- In "Intervention": the composition of the tested detergent is not declared yet, as required. In particular, I believe it is necessary to specify the names of the chemicals in INCI, instead of the generic description of the product given by the authors. The reader can draw his own conclusions about the quality of the product from the composition.

- The numerical values of the "Table 2" are still partially out of alignment (from "4 weeks post")
