Reviewer's report

Title: An association between Helicobacter pylori infection and cognitive function in children at early school age: a community-based study

Version: 5 Date: 29 March 2011

Reviewer: Marianne M Hillemeier

Reviewer's report:

The authors have done a very comprehensive job of addressing the reviewer comments, and the paper has been substantially strengthened.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
