Reviewer's report

Title: Improving life skills in adolescents with type 1 diabetes: A randomised, controlled intervention study using the Guided Self-Determination-Young method in triads of adolescents, parents and health care providers integrated into routine paediatric outpatient clinics

Version: 1 Date: 19 April 2011

Reviewer: Han CG CG Kemper

Reviewer's report:

This is an informative report about an RCT in adolescents with type 1 diabetes. I have only minor revisions advised:

- in the title" improving life skills " is taken. I should suggest glycemic control as more informative.
Change this all over also in abstract, background etc.
- In the abstract delete the discussion.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
