Reviewer's report

Title: Outcome of HIV-exposed uninfected children undergoing surgery

Version: 2 Date: 18 April 2011

Reviewer: Louise Kuhn

Reviewer's report:

The Tables could be consolidated and laid out in a more rational way.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

No competing interests
