Reviewer's report

Title: Cross-cultural adaptation and psychometric properties of the Brazilian-Portuguese version of the VSP-A (Vecu et Sante Percue de l'Adolescent), a health-related quality of life (HRQoL) instrument for adolescents

Version: 2 Date: 16 August 2010

Reviewer: Monika Bullinger

Reviewer's report:

This is an excellent paper fulfilling in samplesize, psychometric procedures and description as well as discussion of results high scientific standards. One minor aspect however would be to compare VSP-A to other quality of life instruments available in Portuguese and Brazil.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
