Reviewer's report

Title: Variability of physicians thresholds for neuroimaging in children with recurrent headache

Version: 1 Date: 1 March 2014

Reviewer: FLAVIO GIORDANO

Reviewer's report:

Major Compulsory Revisions
1) The classification of different risk of having an intracranial pathology is clear but I think it should be reported at least in simplified Tables or legends to which clinical features the different risk classes correspond

Minor Essential Revisions
None

Discretionary Revisions
None

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
