Reviewer's report

Title: Increased IL-4 mRNA Expression and Poly-aromatic Hydrocarbon Concentrations from Children with Asthma

Version: 1 Date: 12 August 2013

Reviewer: George P Chrousos

Reviewer's report:

The correlation of I-4 and PAH levels should be done and included as a figure.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
