Reviewer's report

Title: Severe and isolated headache associated with severe hypertension as unique symptom of posterior reversible encephalopathy syndrome

Version: 4  Date: 24 May 2014

Reviewer: Daniel Lumsden

Reviewer's report:

The authors have adequately addressed all of the points raised in my review of their original manuscript, including the revisions to Figure 1.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
