Reviewer’s report

Title: Effect of different assumptions for brain water content on absolute measures of cerebral oxygenation determined by frequency-domain near-infrared spectroscopy in preterm infants: an observational study

Version: 2 Date: 28 June 2014

Reviewer: Eugene Dempsey

Reviewer’s report:

I have had the opportunity to review the revised manuscript. The authors have addressed the previous concerns. I have no further comments.

Sincerely

Eugene Dempsey

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
