Reviewer’s report

Title: Risk factors for recurrent injuries in victims of suspected non-accidental trauma: a retrospective cohort study

Version: 1 Date: 18 May 2014

Reviewer: Vijay Batra

Reviewer’s report:

Major Revision

Abstract: Results to be Rewritten
Conclusion: Should be more concise

Manuscript
Introduction: Should be more concise & emphasize on objective of study.
Discussion Section: Needs major revision. Discussion appears to be biased. Flow is missing on several occasions. Hence should be rewritten
Conclusion: Appears more like a discussion. Hence needs revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
I declare no Competing interest in relation to paper reviewed
