Reviewer's report

Title: Social adaptation in Chinese Williams syndrome

Version: 3  
Date: 13 January 2014

Reviewer: Lucia Salesi

Reviewer's report:

The paper is well written. It provides original information and details on the Chinese WS population and it underlines the importance of early diagnosis. This last concept is not just a Chinese concept but a general concept.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
