I. Vlachakis, S. Gardikis, E. Michailidou, and G. Charissis
BMC Pediatrics, Feb. 2003

General comments:
The authors have a great job of revising the article, and have produced a very nice piece of work. I have only two very minor comments:
1. Please double check your grammar and punctuation.
2. References: I don't believe references 28-29 are cited in the text. Please check the use of reference 21 on page 6, last paragraph, line 5.
