Title: A Nearly Continuous Measure of Birth Weight for Gestational Age Using a United States National Reference

Authors:

Dr Emily Oken (emily_oken@hphc.org)
Prof Ken P Kleinman (ken_kleinman@hphc.org)
Janet W Rich-Edwards (janet_rich-edwards@hphc.org)
Matthew W Gillman (matthew_gillman@hphc.org)

Level of interest: A paper whose findings are important to those with closely related research interests

Advice on publication: Accept without revision

I feel that the authors have met all of the essential requests for revision and have produced an important national reference source.

They should provide ,ideally as an appendix to their tables, or offer to provide a set of additional tables that give the cell sizes for their reference tables.
